REFFERENCES

- GITHUB
- LINKEDIN
- PORTFOLIO

LANGUAGES

- English
- Bengali
- Hindi

PROJECTS

REAL-TIME SPEECH RECOGNITION & VOICE ASSISTANT

https://github.com/ank-d/Speech-Recognition

- Real-Time Speech Recognition & Voice Assistant project using Python and Assembly AI.
- Accurate speech-to-text transcription using Assembly AI's speech recognition capabilities.
- Natural language processing for understanding and interpreting user queries.
- Voice assistant functionality for tasks like weather checks, browser access, music playback, and information retrieval.

REAL TIME WEATHER EXTENSION

https://github.com/ank-d/Current-Weather

- The Real-Time Weather Extension project is a web-based application built using HTML, JavaScript, and CSS.
- The purpose of this project is to create a browser extension that provides users with up-to-date and real-time weather information for their current location or any specified location.
- The project integrates with weather APIs, such as WeatherAPI, to fetch real-time weather data for the specified location.
- It displays information like temperature, humidity, wind speed, and weather conditions.

ACHIEVEMENT/HACKATHON

KAVACH Regionalist 2023

- KAVACH 2023 cybersecurity all India hackathon by government of India

Organizing Member in the Tech fest Avenir 2023

- Core committee organizing member of tech club Phoenix and organizing member of intercollege Tech fest Avenir 2023.
